Washington, D. C. 20530

Ladies and Gentlemen:

It has now been more than one month since the Environmental Research & Technology (ERT) Report on the St. Louis Park water supply problem was presented to you and your colleagues and the public.

My purpose in writing at this time is to renew the offer made to you in May: that meetings be convened in the Twin Cities at which ERT's expert consultants review their independent findings and conclusions with you and your staffs, and respond to any questions or comments you may have. We believe that the dialogue thus begun can, and must, lead to a technical consensus for a solution.

You indicated earlier that such meetings would be more useful after you and your staffs had sufficient time to review the ERT Report. I hope that time is now at hand.

If you will give me a choice of dates that are convenient for you, I will contact ERT to arrange their participation and attendance at these meetings.
